Assignment Submission Checklist

- | | |
|---|-------------------------------------|
| Is this my best effort? | <input checked="" type="checkbox"/> |
| Has the spelling been checked? | <input checked="" type="checkbox"/> |
| Is the references section correct? | <input checked="" type="checkbox"/> |
| Is all cited material referenced? | <input checked="" type="checkbox"/> |
| Are there any materials that you have not cited? (and should therefore be expunged). | <input checked="" type="checkbox"/> |
| Is the word length OK? | <input checked="" type="checkbox"/> |
| Have I checked for spelling and grammar? | <input checked="" type="checkbox"/> |
| Is your name, student number, instructor's name and course code on the title page? | <input checked="" type="checkbox"/> |
| Could someone read my introduction and have a rough idea of the body? | <input checked="" type="checkbox"/> |
| Could someone read my conclusion and know what they would have learn had they read the body? | <input checked="" type="checkbox"/> |
| Were any of my arguments unsubstantiated or biased? | <input checked="" type="checkbox"/> |
| Did I leave the essay for a few hours and then read it again from a more objective perspective? | <input checked="" type="checkbox"/> |
| Did I check the whole checklist? | <input checked="" type="checkbox"/> |

Q1. One of our goals for this course is to build a lasting community of professionals that will continue to communicate long after the course is over. To that end, use the space below to write a little about yourself. What is your background education? And what would you like to learn from this course?

1) A little about yourself

My name is Seruban Peter Shan, people call me Shan as it's easy. I was blessed to have family, friends and acquaintances who were from different religions than mine. My passion is IT I like most of the stuff related to it so I thought I was an IT MAN for long time, but by time I started to create more hobbies I like for example I like Cars, Gym, Rugby. Ya I know when people here that I played rugby they laugh. Oh was that a long story. My mom was teaching in the same school which I attended and she hated rugby I would plead her and she will tell no and let me do some other sports, time went by and I was going to start my university I told mom doesn't matter what you say I will play RUGBY in university she said do what you want. Oh was it eye catcher for mom she thought I would quit after first practice. And no I didn't, in my last year of university I was rugby vice captain and 2 times colors men, what did that sport teach me obsession beat talent, even though I say that I'm still taking my time to learn on that phrase I hope by time I will, oh you might think so the kid stopped thinking about IT oh no I still have that in mind, but my one sector increased. This happened because of my IT tuition teacher who was working as system engineer in reputed company and he showed me about the backend work he was doing once during classes (I asked him about the job so it's not his fault) and it intrigued me to work with systems, networks and cloud infrastructure and my goal now is to create an efficient, secure, recoverable, automated backend system.

2) What is your background education?

My background education is in Computer Systems and Networking , what this course means is I can create a system and connect it to your companies local network or the internet for usage of commercial purpose. As cloud is the future having this as basic background helps your to engage in the course of cloud computing which I'm pursuing right now

3) What would you like to learn from this course?

I would like to learn how network and create , and how to use network ,also I would like to learn about other cultures and keep how to keep my mind open. I would also like to learn how to judge and talk with people.
